

Connect. Collaborate. Broadcast. Grow.

The all-in-one digital campus ecosystem tailored specifically for university students, campus creators, and departmental communities.

1. What is UniLink?

Modern social networks are built for global mass media, impersonal algorithms, and ads—often drowning out the practical, daily realities of campus life. **UniLink changes that.** It is built from the ground up around university geography, departmental structures, peer mentorship, student entrepreneurship, and campus audio-visual media.

2. Core Pillars & Features

DISCOVERY

The Campus Feed

- **Campus-Aware Feeds:** Algorithmically balanced discussions tuned to your university and department.
- **Live Polls:** Run real-time student elections, debate campus topics, and survey class cohorts.
- **Reposts & Quotes:** Amplify announcements and voice notes with threaded discussions.

AUDIO ENGINE

Campus Podcasts & Audio

- **Student Podcasts:** Stream and publish campus podcasts, talk shows, and career insights.
- **Background Player:** Native audio engine (expo-audio) with play statistics and lock-screen controls.

PROFESSIONAL

🔥 Student Networking

- **Verified Student Profiles:** Show faculty, department, level, achievements, and portfolios.
- **Peer Connections:** LinkedIn-style connection requests to network with course mates and alumni.
- **Campus Leaderboard:** Earn points through community contributions and peer support.

REALTIME

💬 Instant Messaging

- **Ultra-Low Latency:** 1-on-1 private messaging via Socket.io WebSocket gateways.
- **Live Awareness:** Typing indicators, delivered stamps, and message seen confirmations.
- **Media Sharing:** Direct, secure photo and voice message sharing.

COLLABORATION

🏛️ Communities & Lounges

- **Departmental Lounges:** Dedicated hubs for sharing notes, past exam questions, and study sessions.
- **Campus Clubs:** Tech societies, cultural teams, sports leagues, and hostel associations.

COMMERCE

👛 Opportunities & Marketplace

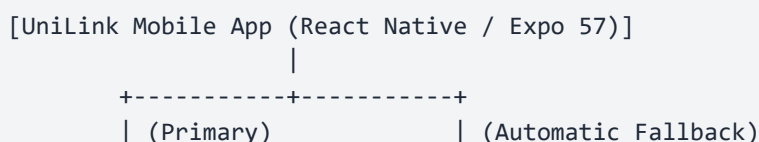

- **Student Jobs:** Tutoring gigs, freelance projects, on-campus jobs, and internships.
- **Campus Trade & Housing:** Safely buy/sell pre-owned books and explore vetted student accommodation.

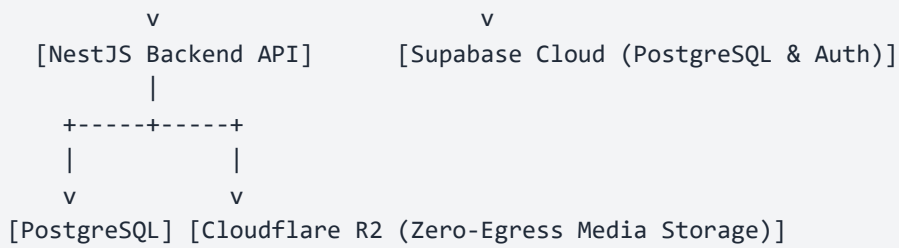

3. Trust, Safety & Moderation

- **Campus Domain Verification:** Strict filtering to prevent bots, spammers, and impersonators.
- **In-App Reporting (ReportModal):** Transparent reporting tools to instantly flag inappropriate content or scams.
- **Granular Privacy:** Privacy toggles to restrict visibility to department peers or public campus feeds.

4. Technical Reliability & Architecture

UniLink features a high-performance **dual-backend architecture** designed for high reliability and zero-egress media costs:

Mobile Engine: React Native / Expo SDK 57 (Universal Android APK, iOS, Web)

Real-Time Delivery: Socket.io WebSockets with zero persistent connection fees

Storage: Cloudflare R2 presigned uploads to completely eliminate egress bandwidth bills.
